

CTM supply on site servicing packages and emergency breakdown assistance for all major brands of P.U. machines

### Competent on site service

CTM has built a first class reputation over many years for on site technical service support.

Only CTM offer a full service capability to customers for all major makes of polyurethane machinery.

We offer low and high pressure machine servicing with the assurance that we only fit genuine replacement parts.

### Rapid on site support

CTM has a team of 5 highly trained engineers available to provide you with rapid on site and telephone support.

Our full service capability covers all major makes of polyurethane machinery.

Our service rates are highly competitive.

### Annual service packages

CTM offer tailored servicing packages that provide essential machine servicing whilst spreading the cost of equipment maintenance over 12 months.

Customers that opt for a CTM service package can be assured that the machine will be reliable.

Product scrap rates are kept to a minimum with the added benefit of increased production efficiency.

And all for a single agreed monthly fee. Details available upon request.

## Metering unit modifications

CTM offers a comprehensive range of equipment upgrades or modifications to suit new processing parameters.

The low pressure machine featured here to the right has been modified so as to be able to process a grade of elastomer polyurethane which is solid at room temperature.

This is a typical example of CTM's modification capability.
